## Full Stack Developer | Professional Services Consultant

### PROFILE

Full Stack Developer with **3+ years of full-stack development experience** building web and mobile apps with Next.js, React Native, Node.js and Python. Built SaaS platforms, lead generation marketplaces, POS systems and automations for companies with 30+ locations in the US that receive thousands of leads per day. **4+ years of bilingual experience in consulting and customer service**, working directly with clients to understand what they need and explain technical topics in simple terms.

### EXPERIENCE

#### Professional Services Consultant

MAR 2026 - PRESENT

Kaseya | Medellín

- Help Kaseya customers implement and configure their IT management tools.
- Guide new customers through onboarding and answer their questions during setup.

#### Full Stack Developer

JAN 2025 - PRESENT

Geeks5G Marketing Agency | Medellín

- Design, build, deploy and maintain web platforms and client dashboards.
- Lead the development team: plan timelines, assign tasks and make sure projects ship on time.
- Meet with clients to define requirements and turn them into working features.
- Build automations and data pipelines with n8n and Python that cut manual work and improve marketing results.

Stack: Next.js, React, React Native, Node.js, Python, n8n

#### Bilingual Customer Service Representative

MAY 2023 - FEB 2025

Solvo Global | Spirit Airlines account

- Handled bookings, flight changes, cancellations and refunds for Spirit Airlines customers by chat.
